

SWEPAC

FB 510

Reversible
vibratory plate

For compaction of sand, gravel and rock fill.

All our machine models are versatile and easy to operate. They are also durable and reliable, which means lower operating and maintenance costs.

- The SWEpac FB 510 is a heavyweight compact diesel-powered machine. Despite its weight, it is well balanced and easy to maneuver.
- The sturdy protective frame provides the motor with effective protection against external damage.
- The Hardox® wear plate in the base ensures a long service life.
- The FB 510 has a fully hydraulic vibrator system and infinitely variable speed control.
- The machine is designed to be highly ergonomic and includes an effective low vibration handlebar with a heating element.
- The chassis is hot-dip galvanized, which means superior corrosion protection.

TECHNICAL DATA SWEpac FB 510

Net, weight	500 kg
Base plate, width	700 mm
Height, max / min	1235 / 1050 mm
Length, max / min	1830 / 1180 mm
Engine	Hatz Supra 1 D50Z
Fuel tank capacity	5.5 liter
Fuel	Diesel
Engine output, max	7.5 kW
Battery capacity	40 Ah
Generator output	180 W(15A)
Centrifugal force	66 kN
Working speed	0 - ca 25 m/min
Hand/arm vibrations a_{hv} according to ISO 5349 on gravel surface	2.6 m/s ²
Guaranteed sound-power level, L_{WA}	108 dB(A)
Sound pressure level (at operators ear)	93 dB(A)

Part number

307700

FB 510 with Hatz diesel engine

FB510_2013-03_GB
